

DONATR

hierarchy of information on donation center pages

DONATR connects donors like you to volunteers who pick up your donations and deliver them to local organizations.

broadcasted needs

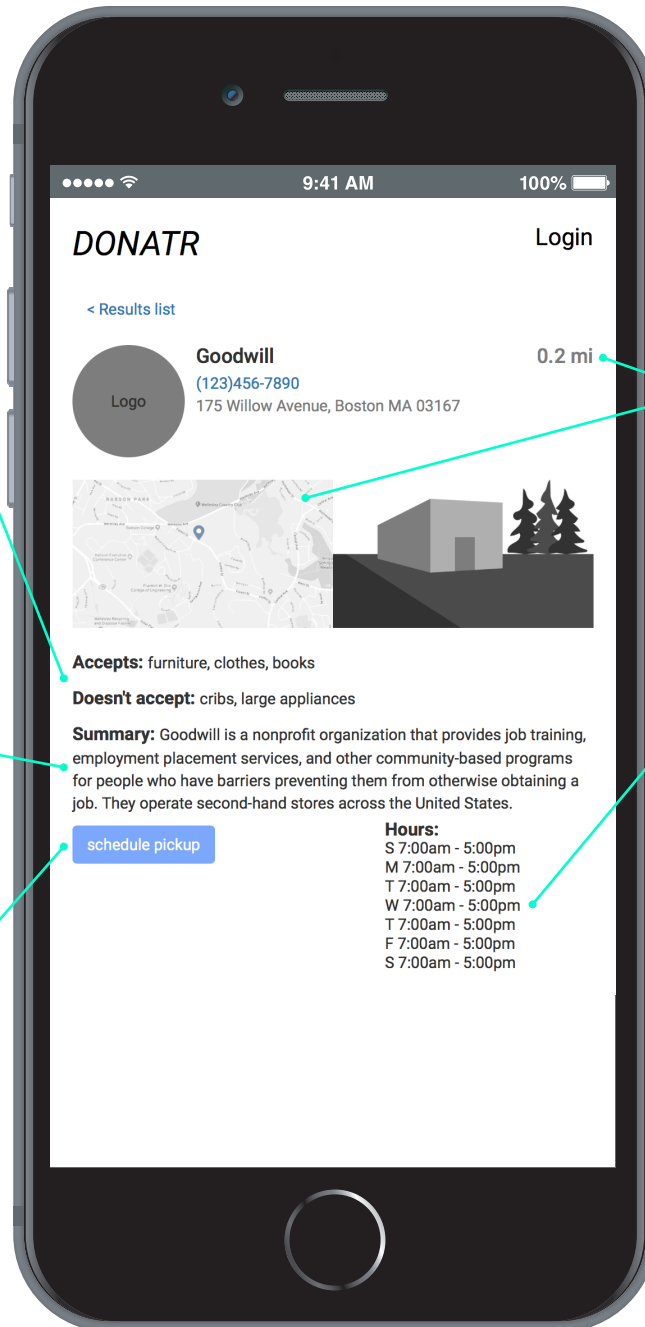

Goods accepted and not accepted are highlighted to help users easily find the right donation center for their items.

organization information

Users can learn more about donation centers and their charitable causes to make sure their things go to the right places.

high-visibility

"Schedule pickup" stands out against other text.

location

When selecting a donation center, users prioritize distance and location.

self-delivery

Users who wish to deliver their donations themselves need to know the hours of operation for each donation center. Positioning is consistent with industry standards for similar interfaces.
